◀ Table of Contents

Kenevo for moderate mobility users

Choose everyday confidence.

Whether he's indulging in his passion for cars, mowing the lawn, or just planning out his day, Bob wants to know his knee will keep him safe and stable at all times. The *Kenevo* provides the reliable safety Bob needs to stay as independent as possible.

▶ How to build confidence

▶ Learn the secret of independence

Kenevo for moderate mobility users

Help them achieve safe, stable mobility.

Study results show that people with a *Kenevo* prosthesis⁴:

- Stumble less often
- Have less fear of falling
- Are more mobile and independent
- Often do not need a wheelchair

Kenevo: The Confidence MPK

Now with even more possibilities.

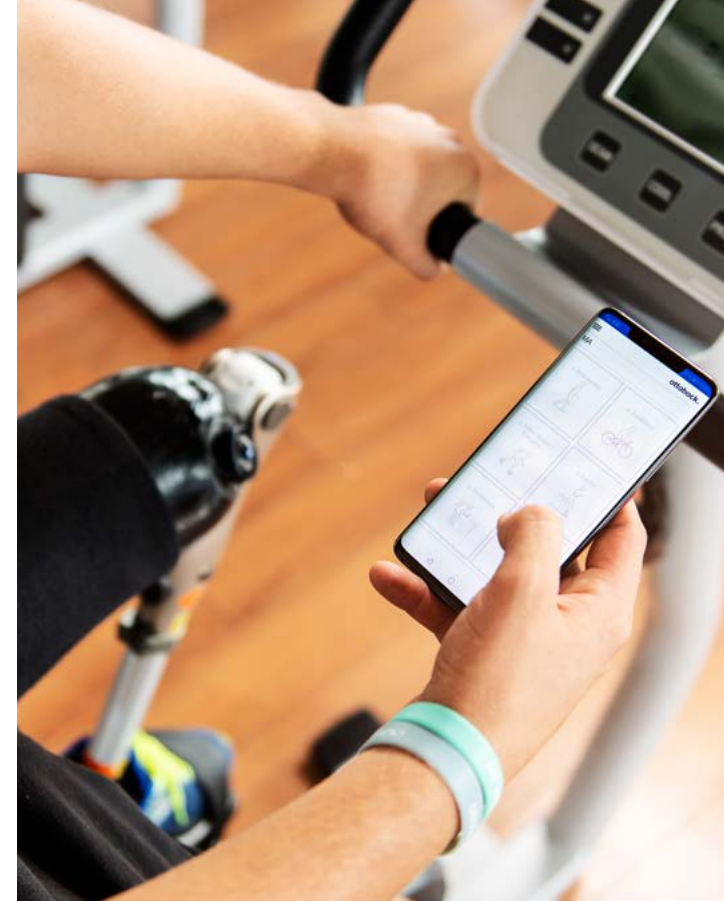

From more convenience during daily routine tasks to exciting features that expand what users can do, the new Kenevo is designed to simplify your patients' lives.

New features and benefits at a glance:

- Stationary indoor bicycle function
- Assisted descent of ramps
- Easier to put on thanks to complete flexion of the knee joint
- Easy configuration from a smartphone with the *Cockpit App*
- Convenient charging without removing the foam cover
- Now also approved for hip disarticulation

Genium

Genium. Choose intuitive flow.

Axel is a process manager at a waste disposal company. He has a laid-back personality and enjoys a wide variety of activities, such as sailing, building houses, traveling, and spending time with his family. And he does it all with his *Genium*.

Genium

See the difference functional cosmesis can make.

Axel typically wore his prosthesis without its simple foam cover. Then he tried his customized, flexible functional cosmesis and noticed a striking difference. Thanks to an innovative, modular design, the cosmesis blends in well and works beautifully with the overall seamless functionality of the prosthesis.

◀ Table of Contents

Genium X3

Choose powerful versatility.

As a student, blogger, and influencer, Réka leads a fast-paced life. She loves being active and feels most free when she's running or swimming. After losing her left leg following a car accident in 2014, Reka decided to study sports management. She now dedicates her time to bringing people with and without disabilities together through sports. Reka's Genium X3 not only supports her active lifestyle and career goals, but it also opens up even more opportunities for her as well.

- ▶ Explore the power of activity
- ▶ Watch Réka drive with Genium X3

Genium X3

Help your patients live life to the fullest.

Organize work and recreation individually via MyMode Plus:

- Choose five personal settings from numerous adjustment options.
- Get support for individual activities such as carrying heavy weights, squatting down, snowboarding, playing tennis, and so much more.
- As an O&P professional, you can program additional settings as needed.
- The user activates different options via the *Cockpit App* and can even make minor adjustments themselves.

Certification and training

You make the difference.

Your patient's quality of life depends in part on the quality of the treatment you provide. The relationship between the provider and the technology is extremely important – particularly for sophisticated, mechatronic prosthetic solutions.

A mark of quality

Being certified to provide treatment with a micro-processor-controlled prosthetic component is both a requirement and a guarantee. It shows that you possess the relevant, necessary expertise to ensure users receive a technically superior fitting.

 For more information about Ottobock certifications and training, please visit our E-Learning portal at **[MyLearning.ottobock.com](https://mylearning.ottobock.com)**

Scope of warranty

◀ Table of Contents

MPK warranty options

Reassurance for you and your patients.

**Ottobock warranty packages make life
easier with:**

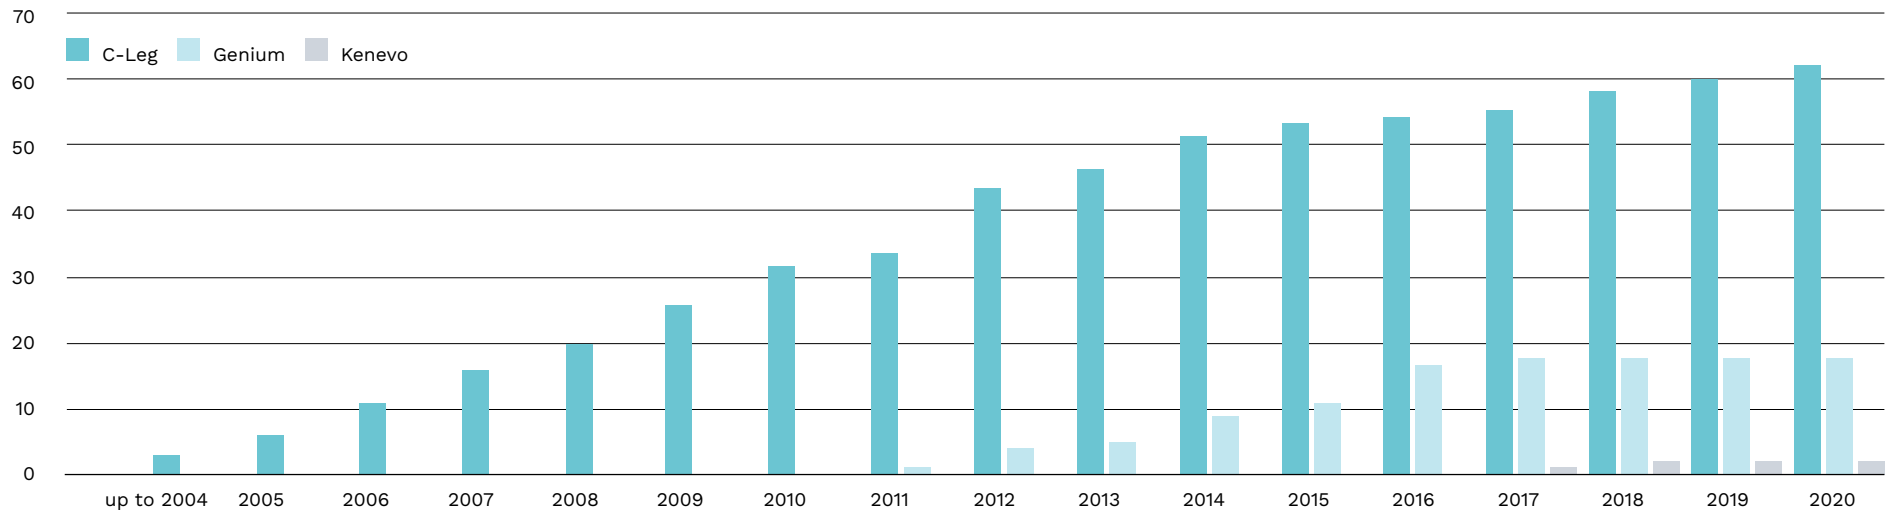

- Free repair and maintenance services during the respective three- or six-year warranty period
- Complimentary loaner during maintenance and repairs*
- No submission of cost estimates or dealing with deadline inquiries
- Shorter wait times
- Comprehensive service – with Ottobock quality

* Free of charge, provided you have complied with the manufacturer's terms and conditions of the warranty.

Expect more quality of life.

Ottobock mechatronic knee joints are backed by a significant range of studies that confirm the benefits users feel on a daily basis.
