Lower Limb Bundles.

Build Your Winning
Combination and Save!

Lower Limb Bundles

The savings are big when you choose a transfemoral or transtibial bundle from our most comprehensive offering of components ever. Plus, our expert selected Winning Combinations are available online for ease of ordering.

How does it work?

Select the required components from our extensive Product Index of eligible components to create your Lower Limb Bundle. Or, if you're looking for additional direction, choose an expert selected Winning Combination and order through our website.

With our Lower Limb Bundles you are in control of choosing the components you need for your transfemoral or transtibial prosthesis.

Savings

You'll save 25% off list price on transfemoral or transtibial components when you order a Lower Limb Bundle. A complete list of eligible components can be found on pages 11-17.

Ordering

To order an expert selected Winning Combination, please visit shop.ottobock.us/winningcombinations. To make your own selections and save on a custom lower limb bundle, please call **800.328.4058**.

Transfemoral Bundle Overview

Selecting the best combination of components for your patient's K2 or K3 transfemoral prosthesis is simple with our Lower Limb Bundles. Whether your patient requires a mechanical knee, Kenevo, or the C-Leg 4 Update, along with a foot and liner to be used in everyday life, we've got the components you'll need to create an optimal prosthesis.

Requirement

Choose a combination of the below to receive a 25% discount:

- 1 foot
- 2 Liners
- 1 suspension or socket option
- C-Leg, Kenevo, or mechanical knee

Want more?

- If you choose a sleeve or adapter to go along with your order, you'll also receive the same great 25% discount on selected components! The more you choose, the more you'll save.
- Sleeve and adapter are not required.

Transtibial Bundle Overview

Choosing a transtibial bundle has never been easier. Whether you need K2 or K3 components, a foot for highly active users, liners that improve hygiene and reduce odors, or a vacuum pump to provide optimal volume management, we've got you covered.

Requirement

Choose a combination of the below to receive a 25% discount:

- 1 foot
- 2 liners
- 1 suspension option or volume management option

Want more?

- If you choose a sleeve or adapter to go along with your order, you'll also receive the same great 25% discount on selected components! The more you choose, the more you'll save.
- Sleeve and adapter are not required.

Winning Combinations*

Transfemoral K3, Microprocessor Knee example

*All components pictured are shown with compatible Ottobock components which help ensure optimal performance. Practitioners need to select components based upon individual patient criteria.

**Required selection for bundle discount.

Winning Combinations*

Transtibial K3, Harmony Vacuum example

Sleeve

453A30 ProFlex Plus

Liner x 2**

6Y512 Uneo 3D Cushion

Suspension or Vacuum**

4R182 Harmony P4 Modular

Adapters

4R82=P Tube Clamp with Pyramid
Other socket and structural adapters as needed

Adapters

2R57 Tube 34 mm – Short
Other socket and structural adapters as needed

Foot**

1B1-2 Meridium

**Additional foot options

F21 Maverick Xtreme AT
F22 Maverick Comfort AT
1C30-1 Trias
1C50 Taleo

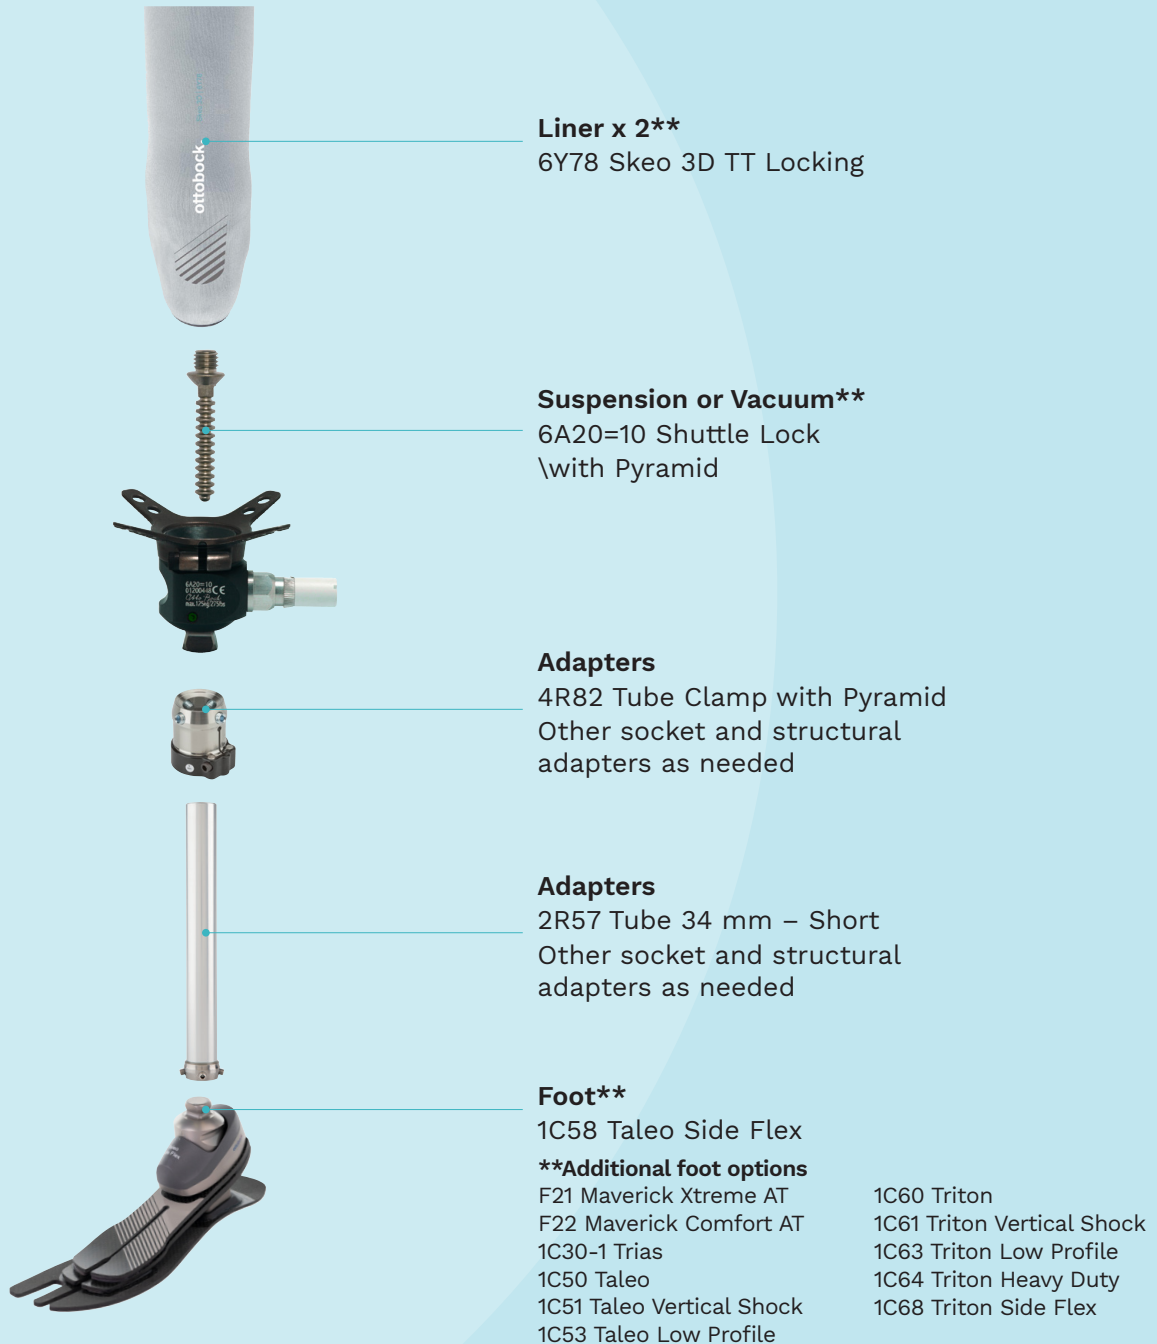

1C53 Taleo Low Profile
1C58 Taleo Side Flex
1C60 Triton
1C63 Triton Low Profile

*All components pictured are shown with compatible Ottobock components which help ensure optimal performance. Practitioners need to select components based upon individual patient criteria.

**Required selection for bundle discount.

Winning Combinations*

Trans tibial K3, Locking example

*All components pictured are shown with compatible Ottobock components which help ensure optimal performance. Practitioners need to select components based upon individual patient criteria.

**Required selection for bundle discount.

Winning Combinations*

Transtibial K2, DVS Vacuum example

Sleeve

453A30 ProFlex Plus

Liner x 2**

6Y94 Partial Cover

Suspension or Vacuum**

4R220 DVS Vacuum Pump

Adapters

4R77 Rotatable Pyramid Adapter

Other socket and structural adapters as needed

Adapters

4R72=60 Double Adapter

Other socket and structural adapters as needed

Foot**

VS4 Kintrol

**Additional foot options

VS5 Restore

1C11 Terion

1M10 Adjust

1S101 SACH+

*All components pictured are shown with compatible Ottobock components which help ensure optimal performance. Practitioners need to select components based upon individual patient criteria.
